INDEX.

A

Abate, Dr. E., obituary notice of, 902
Abattoirs and cow-houses in London, 848
Abbott, Mr. G., a "liberal" profession, 1422
Abdomen, a darning needle in the, 267; foreign body in the, perforation of the abdominal wall, death, necropsy, 632
Abdominal disease, acute, diaphragmatic pleurisy simulating, 79; three cases illustrating the difficulties experienced in making an accurate diagnosis in, 1002
——— Hernia, Clinical Lectures on, chiefly in relation to Treatment, including the Radical Cure (review), 34
——— operations, clamp forceps for, 1260, 1423
——— section for pyloric adhesions, 1004, 1090
——— taxis, acute intestinal obstruction relieved by, 1046
——— tuberculosis, 333
Abelin, Dr. H. A., death of, 825
Aberdeen, small-pox in, 778
——— Doctors at Home and Abroad, the Narrative of a Medical School (review), 32
——— Royal Infirmary, 350
——— University, regulations of the, 550, 961; unveiling of the Kilgour bust, 962
Abortion, severe hæmorrhage during, rectal injection of saline solution in a case of, 136; the crime of procuring, and its penalties in England and other countries, 153; habitual, the treatment of by chlorate of potassium, 1057, 1167; acute peritonitis following attempts to procure, 1573
Abraham, Dr. P., on tinea of the nails, 457; on psoriasis, ib.; on alopecia areata, 1189, 1306
Abscess, acute, intestinal, laparotomy, recovery, case of, 690
Abscesses, tuberculous, following the treatment of enlarged cervical glands with tuberculin, 494
Accident, a curious fatal, 1655
Accurate observers, difficulties of becoming, address on, 1555
Acetanilide as a surgical dressing, 1142
Ackeren, Dr. F. van, Klinisches Recept-Taschenbuch für Studirende und Aerzte (review) 371
Ackland, Mr. C. K., poisoning by primula obconica, 289
Ackrill, Mr. J. W., Harrogate waters and medical advertisements, 289
Acromegaly, case of, 369; the development of, 1256; and syringomyelia, combined, 1206
Actinomycosis, 1222
Adams, Dr. F. E., health report of Bolton urban sanitary district, 1086
———, Dr. J., diphtheria and the sulphites, 1422
———, Dr. J. D. and Mrs., presentation to, 1184
———, Dr. J. H., History of the Life of D. Hayes Agnew, M.D. (review), 35
———, Mr. W., Post-graduate Lectures on the Surgical Treatment of Deformities (review), 1520
Addenbrooke's Hospital, Cambridge, improvements at, 1227
Addinsell, Dr., effects of the influenza poison upon the lying-in woman, 308
Adelaide Hospital, Dublin, 1052
Adenomata, thyroid cyst and, treated by enucleation, cases of, 1384
Advertisements, objectionable, 1542
Advertising and cheap medical attendance, 850
——— paragraphs, 1291
Æsculapius Lodge of Freemasons, 1038
Afghanistan, Amir of, the mission to the, 774
Africa, Guide to Health in, with Notes on the Country and its Inhabitants (review), 33
Aged persons, the testicles in, 265
Agnew, Dr. D. H., History of the Life of (review), 35
——— Mr. J. W., small-pox statistics, 1216
Ailments daily submitted to chemists, the, 1398
Air bath, deafness cured by the compressed, 1646
———, the production of oxygen from the, 703
Air-passages, foreign body in the, operation and removal, 306; and thorax in children, an address on the surgery of the, 615, 678, 735, 793, 915
Aitchison, Dr. R. S., A Medical Handbook for the Use of Practitioners and Students (review), 35
Aix-les-Bains, 243
Alabone v. Morton, 169
Albumen, a new test for, 1544
Albuminuria gravidarum with eclampsia, five cases of, for which venesection was performed in two, recovery of all, 247; high-tension headache and, 1056
Alcohol, the moderate use of, 503; the abuse of, and mental diseases, 739; the late gale and the dangerous use of, 1417; and heart disease, 641
Alcoholism and its Nemesis in Italy, 379
Aldershot and the army manœuvres, 520
Alderson, Dr. F. H., State remuneration, 1348
Alexander, Mr. W., report of the Select Committee on Midwives' Registration, 717, 839
Alexandria, the drainage of, 168
Alien immigration, 833, 950
Alimentary canal, retention of a coin in the, for more than nine months, 27; foreign body in the, 1043
Allbutt, Dr. T. C., on the treatment of scrofulous neck, 395; introductory address by, at the Leeds School of Medicine, 869
Allen, Mr. W. C., death of, 663
Allinson v. the General Medical Council, 63, 99
Alopecia areata, 1189; parasitica, etiology of, 1217; remarks on, 1306
Alston, Dr. H., ascarides lumbricoides, 807
Alta Italia, cholera shadows in the, 318
Althaus, Dr. J., the nervous sequelæ of influenza, 219
Alveolar abscess, extensive, 1587
Alveolar dental membrane, pathology of, 317
Amblyopia (?) and blisters on forearm, 1191
Ambulance arrangements on the Royal wedding day, 152
——— certificates, presentation of, 519
——— work, in Paris, 99; of the City police, 1039; in the north, 1655
America, medical education in, 586
American Journal of the Medical Sciences, the (review), 142, 372, 935, 1313, 1619
——— Medical Association, the meeting of the, 39
——— medical education, 531
——— medical schools, 659, 720, 898
——— Medico-Surgical Bulletin (review), 1008
——— munificence, 476
Aminol, 1010
Amiwch, the sanitary condition of, and the prevalence of "fever" there, 1275
Ammoniated tincture of quinine, 121, 175
Amœbæ, in urine, 175; in human intestines, 1221
Amœbic dysentery, 1528
Amputation, double, for injury, saline infusion preliminary to, 283
Amyl nitrate, recovery after swallowing a teaspoonful of, 1202
Anæmia, pernicious, case of, 1528; spinal cord changes in, 209
Anæsthesia, operations without, 1249; an analysis of the gases of the blood during chloroform, ether, bichloride of methylene, and nitrous oxide, 625
Anæsthetics, 1625; THE LANCET Commission on, 38; deaths under, 37, 261, 343, 817; the perils of, 822
———, observations on the size of the radial artery under, 1514
Anæsthetists, the Society of, 1098, 1524
Analysts' certificates, 1200
Analytical and Sanitary Commission, 1640

ANALYTICAL RECORDS FROM THE LANCET LABORATORY.—Marza tonic wine and Marza meat and malt wine; izal, a new non-poisonous disinfectant; Morse's glycerole of celery compound; Esset's fluid—germicide, antiseptic &c.; "hippoeuthen" food for horses; Bannerman's phenyle disinfectant and germicide, 35—Coffee-tea; new granular effervescent preparations; eucalyptus oil, 309—Staminal foods; condensed Swiss milk and milk food; Pilsener lager beer; effervescent Vichy tablets, effervescent lithia tablets, and cathartic cascara pills; reviviscent chocolate; "L.G.B." soloids of corrosive sublimate; honey gingerbread; coca champagne (Laurent-Perrier), 696—Aminol; pure soluble cocoa; miscellaneous sugar confectionery; Whalley's disinfecting fluid and concentrated sanitary powder; seedless caraway cake; Spartan sauce; hygeian flour; Kingzett's sulphur fumigating candle, 1010

Anatomical buildings at Oxford, the new, 1025
Anatomy, the University of Oxford and the teaching of, 1068, 1215; the teaching of, its aims and methods, 1153, 1280, 1350
——— and physiology, 1622; the Journal of (review), 371
Anchylostomum duodenale, 168
Ancient waterworks, 317
Ancoats Healthy Homes Society, 841; farewell address of Dr. Tatham, 1654
Anderson, Dr. D. E., on the hæmatozoa of malaria, 776
———, Dr. J., health report of Blackpool urban sanitary district, 229
———, Mr., cases of acute peritonitis following attempts to procure abortion, 1573
———, Mr. W., subperitoneal lipoma simulating hernia, 930
Anderson's College Medical School, Glasgow, introductory address at, 971
Aneurysm, ligature of the external iliac artery for, by the transperitoneal method, 31
——— of the popliteal and femoral arteries occurring in the right limb, ligature of the external iliac artery for, 27; popliteal, with persisting fluctuating tumour in the popliteal space, 1386; subclavian, 327; innominate, case of simultaneous ligature of the subclavian and innominate arteries for, 845; of the ascending part of the arch of the aorta

simulating aneurysm of the innominate artery, 496
Aneurysms of aorta rupturing into œsophagus, 1442
Angeioma of the left scapular region, 1189
Animal pigment containing copper, an, 212
Animals, prevention of cruelty to, 264
Ankle, replacement of Dupuytren's fracture of the, 1387; arthrectomy of, 1510
Ankylosis due to a comminuted fracture the result of a fall, 1572
——— of spine, 1387
Annales de la Société Belge de Chirurgie (review), 500
Annus Medicus 1893, 1620
Anonymity in journalism, 833
Anonymous generosity, 845
Anthrax, 318, 1547; deaths from, 285, 779
Anti-alcohol Congress, the, 472
Anti-choleraic inoculations, 164, 837
Antipyrin in epistaxis, 453
Antiquity of medical degrees, 816
Antisepticism and Edinburgh surgery, 704, 819
Antrum, empyema of the, 387
Anus, imperforate, inguinal colotomy for the relief of, the rectum being absent, 804
Aorta, aneurysm of the ascending part of the arch of the, simulating aneurysm of the innominate artery, 496; aneurysms of, rupturing into the œsophagus, 1442
Aphonia, functional, the treatment of, 1291, 1362, 1422, 1487
Apothecaries' Society, the, 91, 1657; regulations of, 555; and the Physick Garden, 1139
Appointments, 66 (*passim*)
Apyrexial influenza, 377, 657
Aquino, Mr T. H., the tolerance of the Indian bladder, 1653
Arachnoid hæmorrhage, traumatic, with symptoms on same side as the lesion, 1251
Archiv für Experimentelle Pathologie und Pharmakologie (review), 142
——— für Pathologische Anatomie und Physiologie und für Klinische Medicin (review), 141
Archives de Physiologie (review), 371, 1313
Archivio ed Atti della Società Italiana di Chirurgia (review), 498
Ardlamont Case, the, 1647
Argyll-Robertson, Dr., presidential address at the Ophthalmological Society, 1062
Arlidge, Dr. J. T., on mineral (non-metallic) dusts, the manufacture of pottery &c., 1368
Arms, varicose veins in both, 248
Armstrong, Dr. H. E., health report of Newcastle urban sanitary district, 55; on cholera precautions, 383
———, Professor, on sanitary engineering, 335
Army, British, strength of the, 1652
———, competitive examinations for the, 1206
——— estimates, the debate on the, 96
——— Medical Department for 1891, report of the, 402, 462, 516, 651
——— medical officers, 1658
——— Medical School, 339
———, Navy, and Indian Medical Services, regulations of the, 557
——— Veterinary Department, 884
Arthrectomy of elbow and ankle joints, 1510
Arthritis, rheumatoid, 933; poly-articular rheumatoid in a child six years old, 928
Artificial feeding of infants, experiments on, 664
Ascarides lumbricoides, 807
Ascites, a case of, recovery, 1185
Asepsis in military surgery, 167
Ashdown, Dr. H. A., obituary notice of, 1094
Asiatic Cholera, its History, Pathology, and Modern Treatment (review), 1007
Asphyxia, singular death from, 282
Aspiration, repeated, cases of empyema treated by, 1061
Asthma, treatment of, 1551, 1661
Astley, Dr. E. F., presentation to, 414
Asylum accommodation in Lancashire, 667
Asylums Committee, report of the, to the London County Council, 635
Ataxia, hereditary, Friedreich's disease or, cases of, 304, 484; and hemianæsthesia from lesion in the pons Varolii, 1437
Athletic life, the, 1084
Athletics, modern, the degradation of, 942
Atkin, Mr., the treatment of earache in children, 1191; case of phagedænic pericementitis, 1191
Atkins, Brigade-Surgeon-Lieutenant-Colonel C. A., farewell dinner to, 278
Atkinson, Mr. F. P., an outbreak of rötheln, 281; the diagnosis between rötheln and scarlet fever, 742; scarlet fever and rötheln, 1033, 1363; a method of disinfecting dwellings after the occurrence of infectious disease, 1551
Atlas and axis, rotatory dislocation between the, reduction, case of, 1382
Atmosphere, the origin of oxygen in the, 508
——— of Manchester and Salford, the, 642
Atmospheric Conditions, Notes on some of the more Common Diseases in Queensland in relation to (review), 1518
Atrophic paralysis, the pathology and distribution of, 385
Atthill, Dr. L., the report of the Select Committee on Midwives' Registration, 653, 896; the Royal College of Surgeons, Ireland, and Apothecaries' Hall, Dublin, conjoint examination, 1538
Auckland district, enteric fever in the, 346
Auditory canal, cholesteatoma of the, caused by a bug, 929
Auld, Dr. A. G., on the minute changes occurring in vesicular emphysema, 20; further observations on the morbid anatomy and pathology of emphysema, 1372
Aural speculum, magnifying, 1260, 1423
Auscultation and Percussion, together with other Methods of Physical Examination of the Chest (review), 1132

MEDICAL SOCIETIES.

BIRMINGHAM AND MIDLAND COUNTIES BRANCH OF THE BRITISH MEDICAL ASSOCIATION.—Trephining for cerebral abscess; Tarsectomy; Lupus with intercurrent syphilis; Glioma involving the basal ganglia, 1255
BRADFORD MEDICO-CHIRURGICAL SOCIETY.—Hygienic points applicable to Bradford; Myxœdema, 932—Pulmonary hypertrophic osteo-arthropathy; Cholera bacilli; Fibrous tumour; Exhibition of specimens, 1256—Acute axial rotation of a dermoid cyst; Typhoid fever; Intestinal obstruction caused by a gall-stone, 1516
BRIGHTON AND SUSSEX MEDICO-CHIRURGICAL SOCIETY.—Rheumatoid arthritis; Contracted kidneys; Testing for albumen in the urine, 933—Jacksonian epilepsy; Diphtherial paralysis; A few remarks on a few points of medical ethics, including a word or two about professional remuneration, 1190
CLINICAL SOCIETY. — Presidential address; Abdominal section for pyloric adhesions; Excision of malignant tumour from large intestine, 1004—Cancrum oris after typhoid fever; Resection of symphysis menti for cancer of mouth; Ectopia vesicæ; Morphœa of fifth nerve; Excision of palmar synovial membranes; Congenital syphilitic hepatitis; Dark urine in pernicious anæmia; Congenital tumour of foot; Gastro-jejunostomy, 1128—Traumatic arachnoid hæmorrhage, with symptoms on same side as the lesion; Disease of the corpora quadrigemina; Syphilitic tumours of spinal cord, with symptoms simulating syringomyelia, 1251—Rotation outwards of lower limbs treated by transverse division of femur; Replacement of Dupuytren's fracture of ankle; Empyema of antrum; Traumatic cephal-hydrocele; Spontaneous cure of meningocele of posterior fontanelle; Ankylosis of spine; Deficient development of the lower jaw; Multiple toxæmic neuritis; Idiopathic sclerosis; Pseudo-hypertrophic paralysis in members of the same family; Fibrous nodules in osteo-arthritis; Displaced carpal bone; Cyst of femur; Chronic apical phthisis; Unusual form of œdema; Myxœdema treated by the administration of thyroid gland, 1387—Osteo-arthritis with fibroid nodules; Recurrent venous thrombosis; Endemic hæmaturia; Empyema with permanent pulmonary collapse, 1511
EDINBURGH MEDICO-CHIRURGICAL SOCIETY.—Nervous disease with unusual symptoms; Friedreich's ataxia, 1190—Psoriasis successfully treated with thyroid extract; Webbed fingers in an infant; Rodent ulcer; Charcot's disease of both knee-joints; Lupus treated with tuberculin; Remarkable case of cretinism; Self-inflicted bullet wound of the head; Therapeutic methods employed in static electricity, 1618
EDINBURGH OBSTETRICAL SOCIETY.—Valedictory address; Administration of organic extracts; Vesico-rectal fistula, 1256—Exhibition of specimens; Double rupture of the membranes; Unusual position of the promontory mark on the fœtal head; Method of use of Champetier de Ribes' bag; Influenza in its relation to obstetrical, gynæcological, and pediatric cases, 1618
FORFARSHIRE MEDICAL ASSOCIATION.—Psoriasis; Vaccination on the upper eyelid; Splenic leucocythæmia; Gangrene of the foot, 933
GLASGOW OBSTETRICAL AND GYNÆCOLOGICAL SOCIETY. — Myxœdema; Recurrent acute œdema of the lips, tongue and soft palate, alternating with acute eczema of the face and hands in a case of myxœdema, 1444
HARVEIAN SOCIETY.—Hypnotism, with illustrative cases, 1129—The first Harveian lecture, 1571
HUNTERIAN SOCIETY.—The thyroid gland and its therapeutic value in myxœdema and certain skin affections, 1311—The administration of oxygen for medicinal purposes, 1515
MANCHESTER MEDICAL SOCIETY.—Development of acromegaly; Omental hydatids; Intra-peritoneal rupture of the bladder, 1257—Exhibition of cases, 1516—Exhibition of case and specimens; Obstinate psoriasis; Bacteriological diagnosis of cholera, 1572
MEDICAL SOCIETY OF LONDON.—Some less-known factors in Graves' disease; Specimens of exophthalmic goitre, 1003—Some mental disorders associated with the menopause, 1128—Strangulation of the testis due to axial rotation of the spermatic cord; Nephrectomy for hydronephrosis, 1250—Syringomyelia; Congenital pemphigus; Cretinism; Femoral aneurysm; Obstruction of superior vena cava; Hydatid of bladder; Congenital cystic tumours of neck and axilla; Electrolysis for dilated venules of face; Lateral sinus pyæmia; Contraction of palmar fascia; Diffuse lipoma of neck; Skin-grafting for lupus; Lichen pilaris; Multiple lineæ atrophicæ, 1383—Specimen of leg after Mikulicz's operation; Amputation of foot by Syme's operation; A series of fifty ovariotomies, 1513
MEDICO-PSYCHOLOGICAL ASSOCIATION OF GREAT BRITAIN AND IRELAND.—The report of the Rules Committee, 1515
MIDLAND MEDICAL SOCIETY.—Cancer affecting the whole cervix uteri; Periostesl sarcoma of the femur; Bronchiectasis of both lungs, 1131—Exhibition of specimens and case; General summary of conclusions based upon about 4000 cases of abdominal and pelvic surgery, 1573
NEWCASTLE-ON-TYNE CLINICAL SOCIETY.—Athetosis; Radical cure of a left inguinal hernia; Recto-vaginal fistula, 1257
NORTH LONDON MEDICAL AND CHIRURGICAL SOCIETY.—Exhibition of cases, 1254—Exceptional case of congenital heart disease; Early stage of chronic muscular atrophy, simulating peripheral neuritis; Case of recurring gangrene of the leg allied to Raynaud's disease, 1618
NORTHUMBERLAND AND DURHAM MEDICAL SOCIETY.—Right iliac swelling; Tuberculous disease; Mitral stenosis; Psoriasis, 1064—Enterostomy without plates; Epispadias and double hernia; Trephining for mastoid disease; Lateral sinus thrombosis cured by ligature of the internal jugular, 1311
NOTTINGHAM MEDICO-CHIRURGICAL SOCIETY.—Inaugural address: Certain forms of diarrhœa, 1064—"The comfort of the patient: practical hints thereon," 1199—Gallop rhythm in cardiac disease; Operation for left-sided pyosalpinx; Exhibition of specimens, 1312—Acute peritonitis following attempts to procure abortion; Dermatitis exfoliativa pigmentosa; Recognition and treatment of strabismus, 1573—Exhibition of specimen; Structure of cancer, 1618
OBSTETRICAL SOCIETY.—Exhibition of specimens; Longings of pregnant women; Absorption of fibroid tumours of the uterus, 31—Observations on the etiology of the sickness of pregnancy; The effects of the influenza poison on the lying-in woman, 308—The relation of external meteorological conditions to the incidence of febrile illness in childbed, 932—A further contribution to the clinical knowledge of puerperal diseases, 1252—Exhibition of specimens; Intravenous injection of saline solution in cases of severe hæmorrhage, 1569
OLDHAM MEDICAL SOCIETY.—Notification of phthisis, 1257
OPHTHALMOLOGICAL SOCIETY. — Epithelial pearl tumour in the iris following implantation of eyelash in the anterior chamber; The diagnosis and prognosis of pathological myopia; Recurrent third nerve palsy associated with migraine, 139—One hundred consecutive cases of epilepsy: their refraction and treatment by glasses; Rapidly growing sarcoma in a child, involving both orbits, with secondary growths; Unusual appearances resembling cyst after cataract extraction, due to distended capsule; Autochromatic plates in photography of the fundus oculi; Demonstration of ophthalmotrope, 1062—Benzoyl-pseudo-tropeine as a local anæsthetic; Spontaneous rupture of capsule after iridectomy, 1254—Failure of central vision; Some unusual forms of intra-ocular neoplasms; Congenital trichiasis; Suggestions in the interest of the eye-sight of children; Exhibition of specimens, 1570
PATHOLOGICAL SOCIETY. — The President's address; Congenital deformity of lip; Pyonephrosis of kidney with double ureter; Abnormalities of intestinal tract, 1005—Bullet wound of heart; Wound of carotid artery; New phase of coccidium oviforme; Intussusception; Angeioma of left scapular region; Syphilitic disease of tibia; Lymph-adenomatous growths involving the heart; Crystals of bilirubin from a hydatid cyst, 1188—Encysted hydrocele of round ligament; Cyst of canal of Nuck; The local lesion of scarlet fever; Streptococcus pneumoniæ from a case of cerebro-spinal meningitis; Severe fever accompanied with red patches over knees and elbows, 1310—Aneurysm of aorta rupturing into œsophagus; Rodent ulcer occurring in the site of a birth-mark; Softening intracardiac thrombi; Hernia of ovary and Fallopian tube; Perforating ulcer of duodenum; Cancer of stomach and duodenum, 1442—Diphtheria of stomach; Dermoid cyst of face; Sequel to case of anomalous tumour of larynx; Abscesses in connexion with the œsophagus, 1568
PLYMOUTH MEDICAL SOCIETY.—Lead palsy Traumatic cataract and dislocated lens, 933 Cholera, 1190—Exhibition of specimens; Double empyema following influenza, 1257—Exhibition of cases and specimens, 1573
READING PATHOLOGICAL SOCIETY. — The printing press and library in relation to medical progress, 1131
ROYAL ACADEMY OF MEDICINE IN IRELAND.—Case of pharyngeal spasm; The diagnostic value of the diazo reaction; Ovarian tumours; Porro's operation, 198—Exhibition of specimens; Discussion on the report of the Rotunda Hospital, 251—The President's address; Favus; Acute rheumatism, 1254—President's address; Removal of tumour of brain; The pathology and treatment of urinary fistula, 1444—Exhibits; President's address; Ventral hernia; Clinical notes; Warty disease of the legs; Pernicious anæmia; Hydrocephalus; Case of cystitis with surgical kidneys; Apoplexy of mesentery; Dilatation of stomach with enteroptosis of the transverse colon, 1574
ROYAL MEDICAL AND CHIRURGICAL SOCIETY.—Multiple joint disease, 1062—The death of the President of the Society; Operations without anæsthesia, 1249—False disseminated

nated sclerosis due to measles; Disseminated fibrosis of kidney in malignant endocarditis, 1385—Arthrectomy of elbow joint and ankle-joint, 1510
ROYAL MEDICAL SOCIETY, EDINBURGH.—In augural address, 1064
SHEFFIELD MEDICO-CHIRURGICAL SOCIETY.—Address on the Prevention of Puerperal Septicæmia, 1131; Phagedænic pericementitis; Expiratory habit spasm; Recent outbreak of cholera in Rotherham, 1191—Eruption occurring after vaccination; Doctors as men of letters, 1312—Exhibition of cases and specimens, 1444—Exhibition of cases and specimens; Injury to the arm; Multiple neuritis attended with joint lesions; Gangrene of fingers; Brachial neuralgia, 1574
SOCIETY OF ANÆSTHETISTS.—The size of the radial artery under various anæsthetics as measured by a specially devised instrument, 1514
SOCIETY OF MEDICAL OFFICERS OF HEALTH.—The Local Government Bill, 1388
SOUTH-WEST LONDON MEDICAL SOCIETY.—Our social position, past and present, 1571
TORQUAY MEDICAL SOCIETY.—Treatment of tuberculosis; Phthisis in its early stage, 1132—Cases of carcinoma; Embedded renal calculus; Empyema; Exhibition of case, 1574
WEST KENT MEDICO-CHIRURGICAL SOCIETY.—Extensive sarcomatous infiltration of the posterior wall of the bladder, 1516—Rhinolith; Uterine polypus; Exhibition of specimens, 1517
WEST LONDON MEDICO-CHIRURGICAL SOCIETY. The diagnosis and treatment of typhoid fever, 932—Alopecia areata; Night terrors, 1189—Glanders; Traumatic cephal-hydrocele in a child after a slight injury; Bromide rash; Rupia; Raynaud's disease, 1515—Ostitis of the humerus; Lupus and grafting by Thiersch's method; Ankylosis of the spine; Cysto-sarcoma of the sacrum of rapid growth; Lupus erythematosus, 1516

Medical students' class guide, 561

Mineral (non-metallic) dusts, the manufacture of pottery &c., 1368
——— waters, 789; the advantages of dry desert air and the application of, in gout, rheumatism, and early phthisis, 871
Miners, the distress amongst the, 94

MIRROR OF HOSPITAL PRACTICE, BRITISH AND FOREIGN.

ASHTON-UNDER-LYNE INFIRMARY.—A case of scirrhus of the head of the pancreas, simulating acute suppurative disease, 306
BRECHIN INFIRMARY.—An extensively adherent ovarian tumour; removal; recovery, 810
BRIDGWATER INFIRMARY. — Two cases of empyema treated by repeated aspiration; recovery, 1061
BURTON-ON-TRENT INFIRMARY.—Plastic operation on the leg; cure, 250
CHARING-CROSS HOSPITAL. — Perigastric abscess perforating the diaphragm and causing empyema; operation; death; necropsy, 89—Suppuration in both ears; left temporo-sphenoidal abscess; trephining; extension of abscess; death, 439
COLNEY HATCH ASYLUM.—Foreign body in the abdomen; perforation of the abdominal wall; death; necropsy, 632
COUNTY LUNATIC ASYLUM, LANCASTER.—A case of acromegaly, 369
DEVON AND EXETER HOSPITAL, EXETER.—A case of supra-pubic lithotomy; recovery, 748—Middle ear disease; cerebral abscess; operation; recovery, 1060
DINORWIC QUARRIES HOSPITAL, LLANBERIS.—A case of phlegmonous cellulitis of forearm following an incised wound of thumb; secondary infection of knee-joint, lung, and throat; pyæmia(?); recovery, 692
DUBLIN ROTUNDA HOSPITAL.—Rupture of the symphysis pubis; suppuration; death, 875
GENERAL LYING-IN HOSPITAL, YORK-ROAD, LAMBETH.—Cæsarean section in a case of cancer of the cervix uteri; child saved; death of mother on fifth day; necropsy; remarks, 1382
GUY'S HOSPITAL.—A remarkable hepatic case illustrating a mode of examination of the liver suggested by Mr. Alfred Parkin; recovery; remarks, 874—A case of cardiac failure during the administration of ether, 1186
HULL ROYAL INFIRMARY.—Three cases illustrating the difficulties experienced in making an accurate diagnosis in acute abdominal disease, 1002
KASHMIR MISSION HOSPITAL.—Excision of gummata of the testicle; recovery—Strangulated hernia; injury to bowel; operation; recovery, 1127
KIDDERMINSTER INFIRMARY.—A case of malignant pustule treated successfully by excision and the external and internal use of ipecacuanha, 1309
KING'S COLLEGE HOSPITAL.—Hydatid cyst of the anterior mediastinum perforating the thoracic wall, 1308
LEEDS GENERAL INFIRMARY.—Ligature of the external iliac artery for aneurysm by the trans-peritoneal method, 31
LEICESTER INFIRMARY. — Acute intestinal obstruction of traumatic origin; operation; recovery; remarks, 748
LONDON HOSPITAL.—Osteoplastic resection of the superior maxilla for naso pharyngeal polypus by a method hitherto undescribed; remarks, 809—Cases of Cæsarean section; remarks, 1508, 1565
MARGATE COTTAGE HOSPITAL.—Fracture of humerus, involving the musculo-spiral nerve; successful operation to release the nerve, 498
MELBOURNE HOSPITAL, VICTORIA, AUSTRALIA. Two cases of cut-throat treated by tracheotomy and immediate suture, 91
METROPOLITAN HOSPITAL.—A case of acute lobar pneumonia associated with acute œdematous laryngitis necessitating tracheotomy, 367
MIDDLESEX HOSPITAL.—Case of dermoid cyst of the spermatic cord simulating hernia; operation; recovery, 1126—Two cases illustrating the more serious complications of dental caries, 1617
NEWCASTLE-ON-TYNE INFIRMARY.—Acute peritonitis after confinement; abdominal section; dermoid disease of both ovaries; removal; recovery, 250—Four consecutive cases of nephrectomy, one of which was complicated by ovariotomy, 1187
PADDINGTON INFIRMARY.—A case of subcutaneous emphysema from a ruptured vomica, 810
ROYAL FREE HOSPITAL.—A case of aneurysm of the ascending part of the arch of the aorta simulating aneurysm of the innominate artery, 496—Cerebral abscess due to otitis media; remarks, 691
ROYAL HOSPITAL FOR SICK CHILDREN, GLASGOW.—A case of multiple tuberculous tumours of the brain; tuberculous peritonitis and ulceration of the intestines, with enlargement of the liver from numerous adenomatous growths; remarks, 137
ROYAL SOUTHERN HOSPITAL, LIVERPOOL.—A case of penetrating fracture of the skull; laceration of the superior longitudinal sinus; trephining; removal of depressed bone; subsequent hernia cerebri; recovery, 197
ROYAL VICTORIA HOSPITAL, NETLEY.—Three cases of abscess in the liver, 29
ST. GEORGE'S HOSPITAL. — Thrombosis of lateral sinus; removal of clot; immediate and complete recovery, 1001
ST. MARY'S HOSPITAL.—Foreign body in the air passages; operation and removal, 306—A case of axial rotation of the testis; remarks, 1247
ST. MARY'S HOSPITAL FOR WOMEN AND CHILDREN, MANCHESTER.—A case of modified Porro's operation for cancer of the cervix complicating pregnancy; remarks, 1510
ST. SAVIOUR'S INFIRMARY, EAST DULWICH.—A case of thrombosis of the lateral sinus; operation; recovery, 930
ST. THOMAS'S HOSPITAL.—Trans-peritoneal ligature of the right external iliac artery for inguinal aneurysm in a patient who had undergone a similar operation on the left side also for inguinal aneurysm, 196—Two cases of sub-peritoneal lipoma simulating hernia, 930—Two cases of Cæsarean section in deformed pelves; recovery of mothers and children, 1410
SALFORD ROYAL HOSPITAL.—Three cases of thyroid cyst and adenomata treated by enucleation, 1384
SOUTH DEVON AND EAST CORNWALL HOSPITAL, PLYMOUTH. — Strangulated right femoral hernia; herniotomy; prolapse of gut and reduction; laparotomy; recovery, 441—Extensive burn; hæmatemesis; death; necropsy, 1127

UNIVERSITY COLLEGE HOSPITAL.—Extensive localised peritoneal abscess; abdomen flushed out and wounds permanently closed, rapid recovery, 632—Chronic peritonitis; intestinal obstruction. Greig Smith's operation; recovery; remarks, 747—Dislocation forwards of the head of the radius; reduction seven weeks after the accident, resulting in a freely movable joint, 1060
VICTORIA HOSPITAL FOR CHILDREN, CHELSEA. A case of symmetrical gangrene of the feet, 249
WESTMINSTER HOSPITAL.—A case of hydramnion and twin pregnancy, 138
WOLVERHAMPTON AND STAFFORDSHIRE HOSPITAL.—A case of purulent pericarditis; necropsy; remarks, 368

Mitral regurgitation, bronchial casts in connexion with, 247
—— stenosis, a clinical lecture on, 1365
Model "holiday home," a, 153
Modesty of the minority, the, 1141

Parliamentary medical service, a, 1529
—— session, the, 1144
Parovarian cyst, acute axial rotation of a, 1444
Parturient animals, the flesh of, 289
Pasteur, Dr. W., introductory address at the Middlesex Hospital, 866
—— institute for India, a, 1153, 1473, 1528
Paterson, Dr. A. G., sporadic cretinism in an infant, 1116
——, Dr. D. R., the medico-legal system of Scotland, 19
——, Professor, introductory address delivered at University College, Dundee, 972
Pathogenic organisms of the upper respiratory tract, 479
Pathological laboratory at Claybury Asylum, 1321
—— prodigy, the, 755
—— Society of London, the presidential address at, 1005
—— specimens, the preservation of, 1349
Pathology, 1623; Professor Hamilton on the progress of, 1076
Patient, the comfort of the, practical hints thereon, 1190
Patients discharged from fever hospitals, disinfection of, 1019
Patterson, Dr. C S., a case of brow-presentation in rickety pelvis, conjugate three and a quarter inches, turning twenty-seven hours after rupture of membranes, 1185
Paul, Mr. F. T., gastro-enterostomy, being a modification of Senn's method, 129; gastrostomy in one stage, 1563; tooth-bearing dermoid of the face, 1568
Pavy, Dr W. F., presidential address at the Pathological Society of London, 1005
Paxton, Mr. J., death of, 166
Payne, Dr. J. F., a lecture on pemphigus, 421; inaugural address on the history of epidemiology in England, 1293
Peaces, Dr. C. W., Voice Training Primer (review), 1312
Peculiar "family" disease, 1453
Pekelharing, Mr. C. A., Beri-beri, Researches concerning its Nature and Cause and the Means of its Arrest (review), 1258
Pellagra and malaria, 477
Pelves, deformed, cases of Cæsarean section in, recovery of mothers and children, 1440
Pelvic abscess, an address on, 1103
Pemphigus, a lecture on, 421; extensive, in acute rheumatism, 439; in acute rheumatism treated with salicylate of soda, 530; congenital, 1386; chronic, cases of, 1574
Penile fistula in a child, a case of, 88
Penrith, scarlet fever at, 1091
Percuteur, cases of neuralgia and migraine treated by the use of the, 1125
Pericarditis, the treatment of, 188; purulent, necropsy, case of, 368; acute, endocarditis and pneumonia, 488
Pericardium, sudden death from haemorrhage into the, cases of, 1380
Perigastric abscess perforating the diaphragm and causing empyema, operation, death, necropsy, 89
Periodicals, an appeal for, 175
Peripheral Neuritis (review), 251; observations on, 1528
Peritoneal abscess, extensive localised, abdomen flushed out and wounds permanently closed, rapid recovery, 632
Peritonitis, acute, after confinement, abdominal section, dermoid disease of both ovaries, removal, recovery, 259; chronic, intestinal obstruction, Greig-Smith's operation, recovery, remarks, 747; cases of, treated by drainage, 1131; perforative, the treatment of, 1018; with effusion, treated by laparotomy, case of, 1563; acute, following attempts to procure abortion, 1573
Pernicious anæmia, spinal cord changes in, 209; dark urine in, 1129
Persidski, Dr. V. J., death of, 1530
Pestreich, Dr. R., Compendium der Physiologie des Menschen (review), 370
Petroleum lamps, 380
Pettenkofer's jubilee, 94
Phagedænic peri-cementitis, case of, 1191
Pharmaceutical prosecution, 723
—— societies in Russia, 960
Pharmacists, strike of, 229
Pharmacological action and therapeutic uses of the nitrites and allied compounds, the Croonian lectures on, 3, 76, 123, 177
Pharmacy, on the study and progress in, 859; at the International Medical Congress, 908; past and present, 1013
Pharyngeal spasm, case of, 198
Phillips, Dr. J., Outlines of the Diseases of Women (review), 369
——, Dr. L., on psoriasis, 457; on case of lupus with intercurrent syphilis, 1255; medical aid associations, 1416; the Medical Defence Union and the London and Counties Medical Protection Society, 1474, 1597
——, Dr. S., case of scarlet fever with relapse, acute rheumatism and purpura hæmorrhagica, 366
Phlegmonous cellulitis of forearm following an incised wound of thumb, secondary infection

of knee-joint, lung, and throat pyæmia (?), recovery, 692
Phosphatic injections, locomotor ataxy treated by, 1246. 1352. 1363, 1422, 1486, 1550
Photography, the use of, in medical teaching, 758
Phthisis, on the influence of heredity in, 386; early, supra-clavicular inspiratory depressions, a physical sign of, 959; sea voyages and, 1089; treatment of, in its early stage, 1132; the notification of, 1257; tuberculin in, 1356; a case illustrating the value of inoculation experiments in animals in the diagnosis of, 1433
Physic and physicians as depicted in Plato, 1319
Physical apparatus, catalogue of, 1231
—— exercises, 1016
—— culture, 943
—— education in schools, the position of, 316
—— exhaustion, the heat and, 446
Physics and diagnosis of pleural effusion, clinical lecture on, 182
—— of the Cranial Circulation and the Pathology of Headache, Epilepsy, and Mental Depression (review), 441
Physiological effects of high-frequency electric currents, the, 957, 1033
—— and pathological proportions of urea, 1075
Physiologie des Menschen, Compendium der (review), 370
Physiologists' Note-book, a Summary of the Present State of Physiological Science, for the use of Students (review), 933
Physiology, anatomy and, 1622
——, Elementary, for Students (review), 1520
—— of fever, a contribution to, 492
—— and psychology, Professor B. Sanderson on, 776
Piedmont, the ballooning tragedy in, 1017
Pike, Mr. J. B., medical aid associations, 60, 225; writings of (review), 500
Pilocarpine, the subcutaneous injection of, 899, 956
Pilsener lager beer, 696
Pinard, Professor M. A., on ischio-pubiotomy, 301
Pincoff, Miss M. C., What Constitutes an Efficient Nurse? (review), 1009
Piperazin, 1661; gout and, 283
Pirie, Mr. W., death of, 644
Pistols, the abuse of, 266
Pitmen's homes libel case, the, 212
Pitt, Dr. G. N., the administration of oxygen for medicinal purposes, 1515
——, Mr. N., on osteo-arthritis with fibroid nodules, 1511
Pitts, Mr. B., an address on the surgery of the air passages and thorax in children, 615, 678, 735, 793, 915
Pityriasis rubra in a case of diabetes, 1056
Pixol, a cheap disinfectant, 960, 1094
Plasmodia in Siberia, 121
Plasmodium malariæ, occurrence of an organism resembling the, in a case of malignant disease of the bladder, 361
Plastic bronchitis, 175, 1291, 1538
—— operation on the leg, 250
Plato, physic and physicians as depicted in, 1319
Playfair, Dr. W. S., a Treatise on the Science and Practice of Midwifery (review), 252; puerperal septicæmia, 1347, 1475; on the performance of ovariotomy by obstetric physicians, 1514

Poor-law medical officers and their stipends, 350
—— medical service, superannuation in the, 808
Poorten, Dr. W., death of, 1400
Poplar Hospital, 403, 668
—— urban sanitary district, health report of, 1151
Popliteal and femoral arteries occurring in the right limb, ligature of the external iliac artery for aneurysm of the, 27
—— aneurysm, with persisting fluctuating tumour in the popliteal space, 1386
Porro's operation, successful case of, 199; for cancer of the cervix uteri complicating pregnancy, 1510
Porter, Dr. C., enteric fever in the Stockport urban sanitary district, 518; notes and queries on small-pox, 1179
——, Dr., multiple neuritis attended with joint lesions, 1574
Portsmouth urban and port sanitary district, health report of, 220
Post-scarlatinal Diphtheria, a Statistical and Etiological Study (review), 1446
Potter, Mr. W., the late, 1482
Pottery &c., mineral (non-metallic) dusts, the manufacture of, 1368; the Select Committee on the manufacture of, 1605
Pott's fracture by direct violence, 1440
Powell, Dr. R. D., on Diseases of the Lungs and Pleuræ, including Consumption (review), 1259
Power, Mr. D'Arcy, symmetrical gangrene of the feet, 949; on peritonitis, with effusion, treated by laparotomy, 1563
Pozzi, Professor, conservative gynæcology, 393
Practical Therapeutics, a System of (review), 92
Practice, a fine point in the sale of a, 1362
Practitioner, the (review), 141, 372, 935, 1313, 1619
——, a, fined for false certificate, 1269
Pratt, Mr. E. F., the treatment of habitual abortion by chlorate of potassium, 1057
Pravaz syringe, the capacity of the, 318
Pregnancy, observations on the etiology of the sickness of, 308; and the puerperium, scarlet fever during, 1246; the administration of large doses of quinine during, 1378; ovariotomy during, 1562
Pregnant women, longings of, 31
PRESENTATIONS.—To Mr. W. J. McFarland, 65; to Mr. J. Ringwood, 117; to Mr. G. E. Morrison, ib.; to Mr. R. R. Hoare, ib.; to Mr. W. Odell, 162; to Mr. Sadler, 285; to Dr. A. R. Croucher, 350; to Dr. D. McBean, 411; to Dr. E. F. Astley, 414; to Mr. R. Henry, 470; to Dr. Symington, 720; to Dr. R. Brown, ib.; to Dr. R. Grant, 723; to Mr. H. Jones, ib.; to Dr. F. J. A. Waring, 746; to Dr. Bristowe, 760; to Dr. M. Jones, 778; to Mr. E. Linnell, 837; to Mr. C. S. Davis, 905; to Mr. R. S. Davison, 1091; to Dr. J. D. and Mrs. Adams, 1184; to Mr. W. B. Mackay, 1287; to Dr. J. Macdonald, ib.; to Mr. G. Padley, ib.; to Dr. C. J. W. Dixon, 1342; to Dr. W. Dougan, 1419; to Dr. A. Denholm, 1547; to Dr. J. Hodgson, ib.; to Dr. J. Clay, 1660
Prevalent diseases, the weather in relation to, 1452
Preventable disease, the loss of life from, 409; the prevention of, 703
Priestley, Dr., health report of Leicester urban sanitary district, 110
Primula obconica, poisoning by, 195, 289
Prince Alexander, the late, 1320
Pringle, Dr. R., Surgeon-Major King and the use of variolous lymph, 223
Printing press and library, the, in relation to medical progress, 1131
Prisons, Egyptian, 1658
Prize-fighting, revival of, serious results, 842
Profession, medical men and the overcrowding of the, 643, 718; and the General Medical Council, 838; the grievances of the, 1266
Professional exclusiveness in Switzerland, 1319
—— training, general culture and, 256
Prophylactic measures against cholera at Liverpool, 218
Prostate, enlarged, medicinal treatment of, 289
Proteid matter, glucoside constitution of, 1588
Protozoa, parasitic, of mammary carcinoma, the so-called, 1182, 1282, 1352, 1476, 1541, 1599
Prout, Dr. W. T., on West African fever, 431
Provident dispensaries, the abuse of, 815
Prussic acid, the production of, from sugar, 510, 673
Pseudo-cholera bacillus, a, 844
Pseudo-hypertrophic paralysis, 1388
Pseudo-science, an exhibition of, 886
Psychiatrie, ein kurzes Lehrbuch für Studirende und Aerzte (review), 1618
Psychic Phenomena, the Law of a Working Hypothesis of the Systematic Study of Hypnotism, &c (review), 877
Psychical contagion in schools, 151
—— disturbances in diabetes, 824
—— stimulants, 258
Psychology and physiology, Professor B. Sanderson on, 776
Public Analysts, Society of, 227
—— conveyances, the want of light in, 818
—— elementary schools, the Education Department and the sanitary condition of our, 881
—— health, the London County Council and, 1135; (Scotland) Act, 1040; and Demography, Handbook of (review), 1519; epidemiology and, 1631
Puerperal convulsions, treatment of, by hypodermic injections of salt solution, 901
—— diseases, a further contribution to the clinical knowledge of, 1253
—— eclampsia, three cases of (two in sisters), 86
—— septicæmia, 392, 1347, 1412, 1475, 1539, 1598; the origin of, 451; the prevention of, 1131; iodine trichloride as a hypodermic injection in, 1220
Puerperium, septic intoxication during the, 113
"Puff, direct, the," 851, 908
Puffing by injudicious friends, 1608
Puzey, Mr. C., compound dislocation of the elbow-joint, 87

Diagram showing the site of the Trephine used for relieving Intracranial Pressure (Dr. Parkin), 23

Microscopical Drawing of Sputum of Patient suffering from Pneumonia (Mr. Bousfield), 23

Tracing showing the Effect of Chloroform on the Blood-pressure (Surgeon-Lieutenant-Colonel Edward Lawrie), 24

Chart illustrating the Alternations of Temperature in a case of Abscess of the Liver, 29

Diagram showing the Course of Cholera in the Hamburg Epidemic (Dr. Thorne Thorne), 50

Diagrams indicating the Pressure of Blood through the Lungs under the influence of the Nitrites and Allied Compounds (Dr. Leech), 77, 79, 179, 180

Diagram illustrating the superior value of Curved Skin Incisions (Mr. P. T. B. Beale), 84

Illustrations of a Modification of Senn's Method of performing Gastro-enterostomy (Mr. Paul), 130

New Form of Tourniquet Fastening, 142

Illustration of Bronchial Casts in connexion with Mitral Regurgitation (Mr. S. C. Lawrence), 247

Figures of Casts passed at a late stage of Membranous Desquamative Urethritis (Mr. Battle), 303

Thermometric Chart in connexion with a case of Scirrhus of the Head of the Pancreas (Mr. J. B. Smith), 307

Improved Mouth-prop or Gag (Mr. Wingrave), 310

Illustrations of commencing Necrosis of Epithelium in a case of Pancreatic Hæmorrhage and Fat Necrosis (Dr. H. P. Hawkins), 360, 361

Drawings of an Organism resembling the Plasmodium Malariæ in a case of Malignant Disease of the Bladder (Dr. Lauder Brunton), 362

Diagrams showing the areas of Surface affected by Anæsthesia and Analgesia respectively in a case of Syringomyelia (Drs. Coleman and O'Carroll), 363

The "Core" Bed rest, 372

Nasal Probe and Cotton-holder (Dr. Macnaughton-Jones), 373

Map showing the Growth of London, 402

Temperature Chart showing the Hyperpyrexia in a fatal case of Pemphigus (Dr. J. F. Payne), 422

The "Vonda" Vaginal Syringe, 443

New Boot-drier and Warmer, 443

Portrait of an Unvaccinated Patient in whom the Small-pox was fully developed (Dr. J. G. Gornall), 487

Diagrams indicating the Areas of Cardiac Dulness in a Case of Acute Rheumatism, with Chart of Temperature (Mr. N. H. Forbes), 489

Diagram of Basal Ganglia in a case illustrating the Physiology of Fevers (Dr. G. T. Stevens), 493

Diagram showing the Site of an Aortic Aneurysm (Dr. Hector Mackenzie), 497

Red Cross Ambulance, 501

Portrait of the late Dr. Charcot, 524

Illustrations of the Air-passages in a case in which Tracheotomy was performed (Mr. B. Pitts), 618, 683

Embryo of Bilharzia Hæmatobia in Ovo (magnified) (Dr. G. S. Brock), 623, 624

Section of Cleft Palate after Operation, with Illustration of Knife used, also Views of Palate at Rest and during Snoring (Mr. C. J. Bond), 627, 629

Section of Abdomen in which a Spoon had been inserted with suicidal intent (Mr. Rouse), 633

Illustrations of Sarcoma of the Orbit before and after Operation (Dr. Collins), 690

Representation of a Toilet Plate, 697

View of Back Premises of a House in Antwerp in which Cholera had prevailed, 712

Figures showing the Dimensions of a Spina Bifida and the result of its Removal (Mr. Mayo Robson), 742

Aseptic Hypodermic Case, 750

Portrait of the late Surgeon-Major Parke, 781

Figures indicating the direction of Curvatures in Diseases of the Spine (Mr. Howard Marsh), 791

Representaton of the Larynx and Trachea of a Child in which a Foreign Body was impacted, 794; other specimens (Mr. B. Pitts), 795–6

Portraits of Patient exhibiting the Effects of Treatment of Myxœdema by Thyroid Extract (Dr. A. Napier), 805

Representation of a Fragment of Penholder embedded in the Orbit (Dr. Ramage), 808

Clamp for Occluding the Gut in Intestinal Operations (Mr. A. Lane), 813

Portrait of Mr. Charles Clay of Manchester, 846

Vertical Section of portions of the Upper and Under Surfaces of the Liver in a Case of Tumour of that Organ (Mr. W. A. Lane), 874

Section of Trachea blocked by a Caseous Mass (Mr. Bernard Pitts), 915

Sketch of a Device for remedying Equino-varus (Mr. R. Davy), 922

Temperature Chart in a Case of Thrombosis of the Lateral Sinus (Mr. H. E. Harris), 931

Section of an Improved Teapot, 936

Illustration of Malformation of the Alimentary Canal (Mr. Sutton), 1006

A Thermo-urinometer, 1011

Elevation and Plans of the New Anatomical Buildings at Oxford, 1028–9

Map showing how the Irwell falls into the Manchester Ship Canal, 1020

Map of Watershed of the Irwell, 1082
